

Access for all at Northern Lights MCC

Here at Northern Lights MCC we try and make worship accessible to all the people who attend our services

Quiet Space

This is a space that you can just spend time with God and not have people interact with you during the service

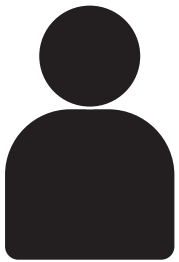

Hearing loop

There is a hearing loop fitted around the whole church
Set your hearing aid to the T position

Large Print

Everything you need for the service is on the screens, however if you prefer there are paper copies of the slides and readings available at the back of church

Gender Neutral Toilets

The toilets we have in this building are designated gender neutral to be welcoming to our trans and non-binary siblings

Pastoral Care team

We have a team of trained volunteers who can help those with any spiritual or material need.
